Mission

The Tennessee Colleges of Applied Technology serve as the premier suppliers of workforce development throughout the State of Tennessee. The Colleges fulfill their mission by:

- Providing competency-based training through superior quality, traditional and distance learning instruction methods that qualify completers for employment and job advancement;
- Contributing to the economic and community development of the communities served by training and retraining employed workers;
- Ensuring that programs and services are economical and accessible to all residents of Tennessee; and
- Building relationships of trust with community, business, and industry leaders to supply highly skilled workers in areas of need.

Computer Information

Description:

This program is instructed by Betty Parker. Computer Technicians troubleshoot, repair and maintain personal and business computers. Network Technicians build and maintain networks used by business, educations, government, and health-care institutions. Network linking desktop computers allow users to send electronic mail (e-mail) and to share data, computer applications, and Internet connections. As more institutions establish computer networks, the demand for skilled computer network technicians will grow. A Computer Security Specialist ensure the Confidentiality, Integrity, and Availability of a network and data.
